DIGITAL MARKETING • SOCIAL MEDIA & CONTENT • AI-ASSISTED PRODUCT BUILDER

Multi-disciplinary professional operating at the intersection of **digital marketing, content creation, and software development**. Experienced in architecting performance ad campaigns, hook-driven short-form video (Reels), and end-to-end digital business platforms — including **CashALL (cashall.in)**, an operational recommerce & ERP ecosystem. Leverages AI-assisted development (Antigravity, Gemini) as an engineering multiplier while enforcing deterministic business logic and conversion-focused growth.

KEY PROJECTS & ENGINEERED SYSTEMS

CashALL — Recommerce & Operations Platform (cashall.in)

Next.js 14, Prisma, PostgreSQL, Android, Meta CAPI

- Architected an operational recommerce platform digitizing used-device procurement across 4 distinct user roles: Customer Web App, Admin Operations Hub, Native Android Technician App, and Telecaller CRM Queue.
- Engineered a deterministic, rule-based device valuation engine incorporating condition penalties, accessory bonuses, and minimum floor price protections for accurate instant quotes.
- Integrated Meta Conversions API (CAPI), Google Maps Places API, Tesseract OCR for IMEI verification, and automated PDF purchase invoicing.

LedgerPrime — Desktop ERP & Accounting System

React 19, Electron, SQLite, TypeScript

- Built a keyboard-centric desktop accounting ecosystem modeled after Tally, featuring full voucher cycles (Sales, Purchase, Journal, Contra) and live multi-item GST calculations.
- Implemented multi-company data persistence with SQLite and sub-50ms keystroke responsiveness.

Business Automations & Revenue Analytics

Google Apps Script, Python, Power BI, Sheets

- **FIFO Inventory Intelligence:** Automated stock batch movement tracking using Apps Script, reducing manual tracking drift.
- **GST Billing Automation:** Built structured invoicing system with customer registry lookup and instant automated tax invoice output.
- **Retail Revenue Intelligence (RFM):** Performed RFM customer cohort segmentation in Python/Power BI to isolate high-value buyer clusters.

EXPERIENCE & INTERNSHIPS

Finance Intern — IMS Proschool, Kolkata

May 2025 – Jun 2025

- Built break-even and profitability models analyzing BATA's franchise business structure and cash-flow mechanics.
- Applied Time Value of Money (TVM) models for financial decision analysis and operational cost sensitivity.

Finance Intern — Acmegrade (Remote)

Feb 2025 – Apr 2025

- Analyzed equity market trends, portfolio balancing strategies, and price movement using technical indicators.

EDUCATION & CERTIFICATIONS

Bachelor of Commerce (B.Com) — Umeschandra College

2023 – 2027

Class XII (77%) & Class X (80%) — Agrasain Boys' School (CISCE)

Howrah, India

Certification: Generative AI Mastermind (Outskill)

Autonomous Systems & AI Agents

SKILLS & CORE COMPETENCIES

Digital Marketing:	Meta Ads Manager, Performance Marketing, Campaign Strategy, Conversion Tracking (Pixel & CAPI), Lead Generation, Audience Targeting & Retargeting, Funnel Optimization
Social & Content:	Short-Form Video (Reels), Video Editing (Premiere / CapCut), Content Planning & Calendars, Carousel Design, Scriptwriting & Hook Creation, Ad Creatives, Brand Voice
Technology & Systems:	Next.js 14, React, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, Supabase, Python, REST APIs, Google Apps Script, Google Sheets Automation, Git & GitHub
AI-Assisted Building:	Antigravity IDE, Gemini AI Orchestration, Prompt Engineering & Functional Specs, Rapid Software Prototyping, Automated Workflows
