PROFESSIONAL SUMMARY

Multi-disciplinary growth practitioner working across digital marketing, high-retention short-form video, and AI-assisted product building. I run performance ad campaigns and organic content strategies while shipping end-to-end operational systems for clients on demand — including CashALL (cashall.in) — using AI tools like Antigravity and Gemini to build custom web platforms, ERPs, and business automations quickly.

WORK EXPERIENCE

CashALL — Aarna Enterprise Aug 2026 – Present

Digital Marketing & Product Associate — Used-Device Recommerce (cashall.in)

- Built CashALL's ERP and digital business platform through an AI-assisted workflow.
- Designed customer, agent, admin, support, and operations workflows end to end.
- Developed the device valuation, quotation, order, inspection, and billing systems.
- Manage social media, Reels, ad creatives, and performance marketing (@cashall_official).
- Implemented Meta CAPI, Google Maps, OCR, and automated invoicing.

Finance Intern — IMS Proschool, Kolkata May 2025 – Jun 2025

- Built break-even and profitability models analyzing BATA's franchise structure, applying time-value-of-money methods for financial decision analysis.

Finance Intern — Acmegrade (Remote) Feb 2025 – Apr 2025

- Studied equity markets, portfolio balancing strategies, and price movements using technical indicators.

PROJECTS

CashALL — Recommerce & Operations Platform Antigravity AI · Next.js 14 · PostgreSQL

- Built a complete recommerce platform with Antigravity AI, connecting four roles: Customer Portal, Admin Hub, native Android app, and Telecaller Queue.
- Configured a deterministic rule-based pricing engine, instant invoicing, Tesseract OCR verification, and Meta CAPI conversion tracking.

LedgerPrime — Desktop ERP & Accounting System Antigravity AI · Electron · SQLite

- Built a keyboard-centric desktop accounting system with AI assistance, delivering Tally-style speed, full voucher cycles, and automated GST calculations.

Business Automations & Revenue Intelligence Apps Script · Python · Power BI

- FIFO Inventory & GST Billing: automated stock-batch tracking and tax-invoice creation with Apps Script and Google Sheets.
- Retail Revenue Intelligence (RFM): customer cohort segmentation model built in Python and Power BI to target high-value buyers.
